Dear Firms requiring tire disposal permits:

Enclosed are a bond form and an application for a Tire Disposal Permit. Both must be completely filled out before a Tire Disposal Permit is issued to your organization. The Tire Disposal Permit only allows your firm to dispose of waste tires at the I-95 Complex. If your firm wishes to dispose of other materials, this permit and bond may be modified to reflect changes. However, please allow seven (7) to ten (10) days for modification.

A bond is required in order to use the facility. The bond must be dated from the day it is issued through June 30, 2006. The minimum bond amount varies per customer and is determined based on the tons of tires delivered to the County. The amount of the bond is \$10,000 per vehicle or equal to the average of 3 months' tire disposal charges. You may obtain your bond from a bonding or insurance company.

Mail your completed application and original bond to:
